(3) "Data Universal Numbering System +4 (DUNS+4) number"
means the DUNS number assigned by Dun and Bradstreet plus a 4-digit suffix that may be assigned by a parent (controlling) business concern. (b) (1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee must be registered in the CCR database prior to award, during performance, and through final payment of any contract resulting from this solicitation, except for awards to foreign vendors for work to be performed outside the United States.

(2) The offeror shall provide its DUNS or, if applicable, its DUNS+4 number with its offer, which will be used by the Contracting Officer to verify that the offeror is registered in

the CCR database.

(3) Lack of registration in the CCR database will make an offeror ineligible for award.

(4) DoD has established a goal of registering an applicant in the CCR database within 48 hours after receipt of a complete and accurate application via the Internet. However, registration of an applicant submitting an application through a method other than the Internet may take up to 30 days. Therefore, offerors that are not registered should consider applying for registration immediately upon receipt of this solicitation.

(c) The Contractor is responsible for the accuracy and completeness of the data within the CCR, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to confirm on an annual basis that its information in the CCR database is

accurate and complete.

(d) Offerors and contractors may obtain information on registration and annual confirmation requirements by calling 1-888-227-2423, or via the Internet at http://www.ccr.gov.

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (JULY 2003)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show-(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or
- other documents, if necessary;
 (5) Terms of any express warranty;

address;
(8) A completed copy of the representations and certifications at FAR 52.212-3;

(9) Acknowledgment of Solicitation Amendments; (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated

separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers. (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly

delay the acquisition; and --

to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals,

it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral

testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

- (5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.
- (g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

SPECIFICATION FOR REDUCED RECOIL RISK, SINGLE PART MOORING LINE

- 1. The 4 strand, Reduced Recoil Risk (RRR), High Molecular Weight Polyethylene (HMPE), Single Part Mooring Lines (SPMLs) to be furnished shall be in accordance with technical requirements of Commercial Item Description CID A-A-50435B, except as follows:
 - HMPE fiber Spectra 1000 or Dyneema SK 75 shall be substituted for the strength member material, in lieu of aramid. Linear density requirements are eliminated, accordingly.
 - Lines shall be produced in the breaking strength (BS) and overall finished length as listed in paragraph 6 below.
 - Line required for break test samples shall be taken from same production run as finished rope assemblies.
 - O/d ratio shall not be below 3:1 based on critical dimension of typical chock; hence the maximum rope diameter for each size line is listed in para 5. In light of the allowable D/d ratio as low as 3:1, helix angle and related stretch characteristics may be increased from values listed in CID, to improve bending efficiency at the discretion of the manufacturer.
 - o If construction is changed from that specified in the CID, the contractor must perform a series of three "failure mechanism" (snap-back) tests on the initial lot, per the procedure listed in para 4.5 under Quality Assurance in CID A-A-50435B, and these samples must also meet the minimum BS requirement (test results to be provided together with the mooring line).
 - o If construction is NOT changed, snap-back test may be limited to one per lot based on the snap-back test procedure listed in CID A-A-50435B, and these samples must also meet the minimum BS requirement.
 - Test Length for "failure mechanism" testing shall be IAW latest revision of CI 1502, "Reduced Recoil Rope Test Method".
 - No BS testing of other samples (ie, 35 foot BS test) is required.
- Lines shall be produced with manufacturers unique tracer for clear visual identification of this manufacturers line from others. Tracer pattern must be registered with Cordage Institute of America.
- 3. Lines shall be finished as follows:
 - a. Lines shall be finished with six foot eye splices and five foot long Cordura nylon chaffing sleeves, or equal, installed in the eyes.
 - b. Two five-foot long, sliding, Cordura chaffing sleeves, or equal, shall be installed on the working part of line, and left near the eye at each end.
 - c. Polyester tattletales intended for low stretch lines shall be installed in accordance with NSWCCD procedure, as specified in Naval Ships Technical Manual (NSTM) Chapter 582.
 - d. A durable identification tag shall be placed in crotch of the eye splice of each line to clearly designate: Manufacturer, Year assembled, minimum breaking strength of line; line material and construction; and applicable specification. The ID tag may be leather, nylon, other durable cloth, or equal. The tag could be installed around a single strand or around the circumference of the line at time of splicing. Tags should be positioned near the apex of the eye to minimize wear on the tag.
